

Creating a Delicious Web Site Account & Placing Posting and My Delicious Buttons in Your Bookmark Toolbar in Safari

Delicious is a social bookmark site where you can easily organize bookmarks to share with students. It is Internet based, which allows your students to view all of the bookmarks that you want them to access in an organized way. It also allows you to place Web site links easily into Delicious without having to store them on Word documents or other ways.

To create a Delicious account first go to <http://del.icio.us/>.

In the upper right hand portion of the Delicious Web page, you will see the word **Register**. Click on that word to register and create your log in and password in Delicious.

To register, you will fill in the following information and click on **Register** again.

username is required

username

full name

password

password again

email

please type these letters

Next, you will be taken to a page that looks like this:

Welcome, bobstenner. Your account has been create

To use del.icio.us, you need to install two buttons into you buttons in the next step.

Drag these links onto your Bookmarks bar above:

Your bookmarks bar will look similar to this:

There will directions on this page about what to do, but simply put, you will **drag** the **post to del.icio.us** arrow and the **my del.icio.us** arrow up to your bookmarks bar.

When that is complete, you will be able to easily go to your Delicious page by clicking on the **my del.icio.us** button, and you will be able to post links to your favorite Web sites by using the **post to del.icio.us** button.
