

To enroll students:

- Open Safari
- Students should log onto www.explorelearning.com
- In the top right corner, students should click on ***Students with a Class Code » [Enroll in a Class Here](#)**

This window should appear:

Do you have an ExploreLearning username and password?

Yes, I have a username and password.

If you've enrolled in a class previously, please login before enrolling in the new class.

Username:

Password: [\[use secure login\]](#)

No, I don't have a username or password.

New students, please [click here to continue the enrollment process.](#)

- Student chooses either "previously enrolled in another class" or "No, I don't have a user name or password "

- New students will click on bottom of window on “click here to continue the enrollment process” and the following window should appear

Enroll in a Class – Student Registration

Enter Class Code Below

Note: If you are already enrolled in another class, please [log in](#) before entering a new class code.

- Enter your teacher's class code
- A confirmation window will appear. Click on “yes”

Enroll in a Class – Student Registration

Confirm Class

You are about to enroll in class **demo** taught by **Robert Weber**.

Is this where you want to enroll?

- the following window should appear:

Your information will be held in [strict confidence](#). Fields marked with an asterisk (*) are required.

Personal Info

* First Name:

* Last Name:

E-mail Address: (*Not required of students*):

Create Your Account Login Info

* Username:

* Password:

* Confirm Password:

Please Note: Username and Password are case sensitive.

- Students will then need to complete their registration by entering first and last name, username, and password.
- It is a good idea to include Email address so that students can have their password emailed to them if they have forgotten it)
- Click on Submit
