Dear Highland Terrace Families and Students,

We hope your family enjoyed the long weekend and were able to engage in activities that bring you happiness. I know this continues to be a challenging time with so many emotions and unknowns. For our family, knowing that we are missing many fun traditions brings sadness and an eagerness to be back with our school community. We also are wondering what next year will bring and how a transition to middle school will look. I know our HT families are experiencing some similar and different feelings and emotions during this time. On behalf of our entire staff, please know we continue to be available to listen and provide support to students and families.

As we head into June, our staff are continuing to plan lessons and think about ways to keep students engaged during these weeks before summer. We are also thinking about the end of the year and classrooms are generating ideas for how to bring closure to this school year. We will be listening and learning about state and district plans for the future and will communicate what we learn with our entire community.

Below is information we continue to want to share with both families and students across all grade levels.
