Introduction

School lunch and breakfast meals follow stringent nutrition requirements to ensure that students receive food that promotes health and wellness. Likewise, it is important that snacks sold during the school day support healthy lifestyles. The regulations under the Healthy, Hunger-Free Kids Act of 2010 emphasize fruits, vegetables, and whole grains, while limiting sodium, fat, and sugar in snacks.

If you have a product you would like to sell at the school, the “Smart Snacks Product Calculator” can be used to determine if it meets the requirement. This tool may be found on the Shoreline District Wellness page, at http://schools.shorelineschools.org/foodservices/district-wellness/.

Determining the appropriateness of a recipe, such as for use in a bake sale, is more difficult. It requires a nutrition facts label or online nutrient analysis to determine the calorie, sodium, fat, and sugar content. Snacks must be within the following guidelines:

- Any food in schools must:
  - Be a “whole grain-rich” grain product; or
  - Have as the first ingredient a fruit, a vegetable, a dairy product, or a protein food; or
  - Be a combination food that contains at least ¼ cup of fruit and/or vegetable; or
  - Contain 10% of the Daily Value (DV) of one of the nutrients of public health concern in the 2010 dietary guidelines for Americans (calcium, potassium, vitamin D, or dietary fiber)*

- Foods must also meet several nutrient requirements:
  - Calorie limits
    - Snack items: ≤ 200 calories
    - Entrée items: ≤ 250 calories
  - Sodium limits
    - Snack items: ≤ 230 mg**
    - Entrée items: ≤ 480 mg
  - Fat limits
    - Total fat: ≤ 35% of calories
    - Saturated fat: < 10% of calories
    - Trans fat: zero grams
  - Sugar limit:
    - ≤35% of weight from total sugars in foods

*On July 1, 2016, foods may not qualify using the 10% DV criteria
**On July 1, 2016, snack items must contain ≤ 200 mg sodium per item

To get you started, this document contains several recipes that meet the smart snacks requirements, and therefore may be sold in schools. It is important to pay attention to the serving size for each recipe, as that is the approved amount that fits the guidelines. If you are able to analyze your own recipe and determine that it meets these criteria as well, the food may be served at school.

Low Fat Whole Wheat Oatmeal Banana Bread

Yield: 12 slices
Prep Time: 10 min, Total Time: 1 hr 10 min

Ingredients
- Cooking spray
- 1 heaping cup mashed banana
- 1/3 cup honey
- 1/3 cup unsweetened applesauce
- 1 teaspoon vanilla
- 1 egg
- 3/4 cup unsweetened vanilla almond milk (or skim, coconut, etc.)
- 1 1/2 cups whole wheat pastry flour
- 1 cup rolled oats
- 1 1/2 teaspoons baking powder
- 3/4 teaspoon baking soda
- 1/4 teaspoon salt

Directions
1. Preheat oven to 350 degrees F. Spray 9-inch loaf pan with nonstick organic cooking spray.
2. In large bowl combine mashed banana, applesauce, honey, egg, almond milk and vanilla until well combined and creamy. In separate medium bowl whisk together whole wheat flour, oats, baking powder, baking soda, salt and cinnamon. Add wet ingredients to dry ingredients and mix until just combined (don't overmix!).
3. Pour into prepared loaf pan, sprinkle oats over top (if desired), and bake for 60-70 minutes or until toothpick inserted into center comes out clean with a few crumbs attached.
4. Remove from oven and place on wire rack to cool completely. Cut into 12 slices and enjoy! Keep bread tightly wrapped to maintain moisture.

Chewy M&M Cookies
Yield: 20 Cookies

Ingredients
- ¼ cup canola oil
- ¼ cup applesauce
- ¾ cup brown sugar, packed
- ¼ cup granulated sugar
- 1 large egg
- 2 teaspoons vanilla extract
- 1 and ¾ cup old-fashioned rolled oats
- 1 cup all purpose flour
- ½ teaspoon ground cinnamon
- ¼ teaspoon baking soda
- ¼ teaspoon salt
- 1 cup mini M&Ms (or regular size)

Directions
1. Using a hand mixer or a stand mixer fitted with paddle attachment, mix the oil, applesauce, and both sugars together on medium speed until smooth. Add the egg and vanilla and mix on high until combined, about 2 minutes. Scrape down the sides and bottom of the bowl as needed. Set aside.
2. In a separate bowl, toss the oats, flour, cinnamon, baking soda, and salt together. Add to the wet ingredients and mix on low until combined. Fold in the M&Ms. Dough will be thick. Chill the dough for at least 30 minutes in the refrigerator.
3. Preheat oven to 325F degrees. Line two large baking sheets with parchment paper or silicone baking mats.
4. Roll balls of dough (about 1 tablespoon of dough per cookie) and place 2 inches apart on the baking sheets. I pressed a few extra M&Ms into the tops of the cookies for looks. Bake for 10-11 minutes until very lightly browned on the sides. The centers will look very soft and may appear undone, but they will firm up as they cool. Remove from the oven and let cool on baking sheet for 5 minutes before transferring to a wire rack.
5. Cover cookies and store at room temperature for up to 1 week. Baked cookies and rolled cookie dough freeze well, up to 3 months.

Gingerbread Cookies

Yield: 16 Cookies

Ingredients
• ⅓ cup canola oil
• ¾ cup sugar
• ¼ cup molasses
• ¼ cup plain soymilk (or milk of choice)
• 2 cups whole wheat pastry flour
• ½ teaspoon baking soda
• ½ teaspoon baking powder
• ½ teaspoon salt
• ½ teaspoon each of ground nutmeg, cloves, and cinnamon
• 1 ½ teaspoons ground ginger

Directions
1. In a large bowl whisk together oil and sugar for about 3 minutes. Add molasses and soymilk. The molasses and soymilk won’t really blend with the oil but that’s ok.
2. Sift in all of the other dry ingredients, mixing about half way through. When all of the dry ingredients are added, mix until a stiff dough is formed. Flatten the dough into a disk, wrap in plastic wrap and chill for an hour or up to 3 days in advance. If you chill longer than an hour you may want to let it sit for 10 minutes to warm up a bit before proceeding.
3. Preheat oven to 350 F. Lightly grease your cookie sheets or line with parchment paper.
4. On a lightly floured surface roll the dough out to a little less than 1/4 inch thick. Cut out your shapes with your cookie cutters and use a thin spatula to gently place on cookie sheets. If you are using them to decorate a tree or something, remember to punch a hole in their heads (!) before baking. Bake for 8 minutes.
5. Remove from oven and let them cool for 2 minutes on the baking sheet then move to a cooling rack. Wait until they are completely cool before icing.

Nutrition Information (1 cookie = 39 g): 147 kcal, 25 g total carb, 1.7 g fiber, 12.6 g sugar, 5 g total fat (31%), 0.5 g sat fat (3%), 2 g protein, 133 mg sodium.

Healthy Raspberry Oatmeal Cookies

Yield: 15 cookies

Ingredients
- 1 cup (100g) instant oats
- ¾ cup (90g) whole wheat or gluten-free flour
- 1 ½ teaspoons baking powder
- ½ teaspoon ground cinnamon
- 1/8 teaspoon salt
- 2 tablespoons (28g) coconut oil or unsalted butter, melted
- 1 large egg, room temperature
- 1 teaspoon vanilla extract
- ½ cup (120 mL) honey
- 6 tablespoons (53g) fresh raspberries, diced

Directions
1. In a medium bowl, whisk together the oats, flour, baking powder, cinnamon, and salt. In a separate bowl, whisk together the coconut oil, egg, and vanilla. Stir in the honey until thoroughly incorporated.
2. Add in the flour mixture, stirring just until incorporated. Fold in the raspberries. Chill the dough for at least 30 minutes. (If chilling longer, cover with plastic wrap, ensuring it touches the entire surface of the cookie dough.)
3. Preheat the oven to 325 degrees F, and line a baking sheet with parchment paper or a Silpat.
4. Drop the cookie dough into 15 rounded scoops on the baking sheet. (If chilled longer than 1.5 hours, flatten slightly.)
5. Bake at 325 degrees F for 13-15 minutes. Cool on the baking sheet for at least 15 minutes before turning out onto a wire rack.

Notes
- It’s incredibly important to measure both the oats and flour correctly, using the spoon-and-level method. If scooped from the container using the measuring cup, you’ll end up with 1.5 times as much, which will dry out your cookies and make them crumbly.
- For a gluten-free version, use gluten-free instant oats and the following gluten-free flour blend: ½ cup (60g) millet flour, 2 tablespoons (15g) tapioca flour, 2 tablespoons (17g) brown rice flour, and ½ teaspoon xanthan gum.
- If the cookies are still really flimsy after cooling on the baking sheet for 15 minutes and threaten to break apart, let them cool completely on the baking sheet. That won’t let them crisp up too much, and they’ll still stay soft for an entire week.

Double Chocolate Muffins
Yield: 12 muffins

Ingredients
- ¾ cup applesauce
- ½ cup sugar
- ¼ cup honey
- 2 egg whites
- ¾ cup vanilla greek yogurt (or regular yogurt)
- ¾ cup all-purpose flour
- ½ cup whole wheat flour
- ½ cup cocoa powder
- ¼ tsp salt
- 1 tsp baking soda
- 1 tsp baking powder
- ½ cup mini chocolate chips, for garnish

Directions
2. In a large bowl, combine applesauce, sugar, honey, egg whites, greek yogurt, and vanilla extract. Whisk them all together until smooth, with no yogurt lumps remaining.
3. Sift* the flours, cocoa powder, salt, baking soda, and baking powder together. Slowly stir in the wet ingredients, being careful not to overmix. Get any dry pockets of flour out. Fold in the mini chocolate chips. The batter will be a little chunky. This is ok.
4. Divide the batter evenly among the muffin cups - fill them all the way to the top if you can. Do not use muffin liners. Bake for 5 minutes at 425F. Keeping the muffins in the oven, reduce the temperature down to 375 and continue to bake for 13 more minutes. Insert a toothpick into the center of one muffin. If it comes out clean, they are done. If not, bake for only 2 more minutes.
5. Remove from the oven and allow to cool for 3 minutes in the pan, then transfer to a wire rack to cool completely.
6. Muffins stay fresh in an airtight container at room temperature for up to 5 days. Muffins freeze well up to 3 months: heat up for 45 seconds to thaw.

*Sifting the dry ingredients is optional

- For cinnamon sugar pretzels: 2 tbsp cane sugar combined with ½ teaspoon ground cinnamon

Directions
1. Preheat oven to 425°F. Line a baking sheet with parchment paper or a silicone mat and set aside.
2. In the bowl of a stand mixer or a large bowl, combine the warm water and yeast and let sit for 3 minutes.
3. Stir in sugar and salt. Slowly stir in the white whole wheat flour until the dough comes together and is not too sticky. Knead the dough (either by hand or with the mixer's dough hook) in the bowl until the dough is smooth but not overworked, about 3-5 minutes.
4. Turn the dough ball onto a lightly floured surface. Using a sharp knife, cut the dough into four equal parts. Cut each part into four more equal parts, for a total of 16 balls of dough.
5. To form the pretzels, roll one of the balls of dough into a long thin rope. Put the two ends of the rope next to each other to form a tight U shape. Twist the ends together once so the twist is about half way down the U. Bring the two loose ends down to the loop at the bottom below the twist. Tuck the two ends under the loop and press so the dough adheres to itself. Gently pull on the pretzel so the dough becomes thinner and the pretzel becomes larger to form a nicely sized pretzel.
6. As for other shapes, you can bake the ropes for pretzels sticks, knot the ropes for pretzel knots, cut the ropes into little equal sized pieces for pretzel bites, or roll the dough into balls and scour the top for pretzel rolls.
7. Lay the pretzels on the prepared baking sheet and spray with cooking spray (this helps the toppings stick). Dip the sprayed pretzels in a shallow bowl filled with your topping of choice (salt or cinnamon sugar) and place back on the baking sheet. Bake in the oven at 425°F for 10 minutes, then broil for 30 seconds or until golden. Devour.

School Fundraiser Popcorn

Yield: 12 servings

Ingredients
- 1 cup unpopped popcorn kernels
- 1 ½ teaspoons Flavacol
- 3 tablespoons oil

Directions
(If not using a popcorn maker)
1. Heat the oil in a shallow pot on high heat, then add the unpopped kernels.
2. Remove from the heat, cover the pot with the lid, give it a good shake, and let it sit for 1 minute. This allows the popcorn kernels to heat up evenly. Otherwise, some of the kernels will pop too early and burn before the rest have a chance to pop.
3. Put the pot back on the stove, turn the heat on to high again, and wait. Give the pot a good shake every now and then.
4. Within a few minutes, your popcorn should start popping. Once the popping has slowed down to nearly a stop, remove the pot from the stove and let it sit for a little while longer to let any stubborn kernels pop.
5. Pour the popcorn into a large serving bowl, and add Flavacol. Toss well and serve.

Roasted Heart Potatoes
Makes: 12 servings (~½ cup each, 150 g)

Ingredients

- 6 large potatoes (about 2 pounds for 4 servings)
- 1/4 cup olive oil
- 1 to 2 tsp salt
- freshly ground pepper
- 2 tsp caraway seeds
- 1/2 tsp paprika (optional)

Equipment: small metal heart shaped cookie cutter

Directions

1. Preheat oven to 400F.
2. Line baking sheet with aluminum foil, spray with non-stick spray or brush with oil.
3. Fill a pot with about 1 quart - 2 quarts of water, add 1 tbl salt, bring to boil, then reduce heat to gentle simmer.
4. In the meantime peel potatoes, slice them, using a small metal cookie cutter cut out as many hearts as you can. Reserve scraps in water, you can also par-cook scraps or make mashed potatoes.
5. Cook potatoes in simmering water for 3 minutes, drain potatoes and let cool slightly.
6. Combine all the ingredients for the marinade: olive oil, salt, caraway seed, pepper, paprika.
7. Pour marinade over potatoes, stir and let sit for 5 minutes.
8. Spread marinated potatoes evenly onto the baking sheet.
9. Roast them for 20-25 minutes, in halftime using an offset silicone spatula carefully turn the potatoes (don't forget to use oven mittens when handling hot baking sheet!).
10. If your oven has a broiler, broil potatoes for additional 5 minutes or until they are golden on brown.

Variation: You can omit caraway seed and use rosemary, or other herbs you like. You can also add garlic, just make sure you add the garlic no more than 1 minute before you plan to take the potatoes out of the oven, otherwise garlic can burn and it will become bitter.
