Shoreline School District Secondary Summer School
High School Program Guide
2019 Location: Shorecrest High School

July 8 – August 2
Session A: 9 AM – 12 PM  Session B: 12:30PM – 3:30PM
Monday - Friday  FREE LUNCH: 12:00PM – 12:30PM
Principal: dina.clagg@shorelineschools.org  Office Mgr: Nicole.haines@shorelineschools.org

General Information

- Shoreline Secondary Summer School is open to Shoreline School District students currently in grades 9 – 12, with some courses open to current 8th graders (see your counselor for registration assistance).
- Since these classes are intensive and condensed, consistent attendance is critical, and students may lose credit for absences. See the “Summer School Agreement” for details.
- Summer School offers in-class courses as well as hybrid and on-line options. The on-line options have two different systems that students may register for: APEX (designed for credit retrieval if a student has failed a variety of classes) or Hybrid (required courses for current 9/10th grade students that meet 1-2x/week & use Canvas for on-line learning).
- Students may also enroll with Shoreline Virtual Learning (SVL) for initial credit (not credit retrieval). For more information on SVL, please contact your counselor.
- Students MUST get counselor approval to enroll in Support and Credit Recovery courses.
- Transportation is available at 9am and 3:30pm only.

SCHOLARSHIPS ARE AVAILABLE!!
Students/families in need of financial assistance should contact their student’s counselor.

In-Class Courses, Morning Session: 9 AM – 12 PM and Afternoon Session: 12:30PM – 3:30PM

HYBRID CREDIT RECOVERY (.5-1.0 Credit in 4 specific courses listed below; P grade):

Courses for current 9th graders:
English 9, Sem. 1 Credit Recovery—CR1EN9—Hybrid and/or Sem. 2 Credit Recovery—CR2EN9—Hybrid
Algebra I, Sem. 1 Credit Recovery—CR1MA1—Hybrid and/or Sem. 2 Credit Recovery—CR2MA2—Hybrid

Courses for current 10th graders:
English 10, Sem. 1 Credit Recovery-CR1EN10 – Hybrid and/or Sem. 2 Credit Recovery—CR2EN10–Hybrid
Geometry, Sem. 1 Credit Recovery-CR1MA1-Hybrid and/or Sem. 2 Credit Recovery—CR2MA2-Hybrid

This is an opportunity for students who just finished 9th or 10th grade (and took the above courses) to recover between .5 and 1.0 of credit over the summer. These classes will be taught using a combination of in-class instruction with a teacher and online activities in a flexible format that is tailored to meet each student’s individual needs. This class is intended to help students gain credit, engage with essential content in a new way, and gain the skills to be successful in their future course work. Upon successful completion of their course, students receive a ‘Pass’ grade on their transcript, earning between .5-1.0 credits. Refer to the Online Summer School Agreement for important details regarding attendance, proctored tests, grades, and more. To enroll, counselor approval required.

Tuition: Free to current 9th/10th students who did not make standard, selection based on counselor recommendation

FACE TO FACE SUPPORT COURSES (Require counselor approval):

Reading Support: ECR111 (.5 Credit in English or Elective)
This course is designed for students who need extra assistance reading and writing at grade level, including students receiving English Language Learner (ELL) support. Students are eligible for this course based on information from state and district assessments and teacher recommendations. They will learn new skills in decoding, vocabulary development, fluency and comprehension to perform at a higher level.

Tuition: $25.00  Prerequisite: selection based on counselor recommendation
FACE TO FACE REMEDIATION COURSES (Require counselor approval):

Students may register for the following courses if they have already taken the course and either did not receive credit (by failing the class) or wish to improve the grade they received in the course. These are NOT open enrollment courses. Counselors must verify previous enrollment and approve your registration to these courses.

The following helps explain the course selection and grade replacement process for all the REMEDIATION courses:

**Using Algebra 1 as an example:**

Students would select either MAT731 (Semester 1) or MAT732 (Semester 2) to improve their grade or recover credit for a failing grade in whichever semester they were not successful.

Example: A student takes Algebra 1 during the school year. They pass first semester, but fail second semester (or earn a grade they don’t like). They have the option of taking the second semester of Algebra 1 by registering for MAT732. Students taking a course during the summer can turn their school-year grade into a grade of NC, and have their summer school grade show on their transcript and factor into their GPA.

1. **Algebra 1, Sem 1:** MAT731 (.5 math credit)
2. **Algebra 1, Sem 2:** MAT732 (.5 math credit)

   Summer Algebra 1 is an intensive course that teaches the content and benchmarks covered during the regular school year of Algebra 1. The critical areas are: relationships between quantities and reasoning with equations, linear and exponential relationships, descriptive statistics, expressions and equations, and quadratic functions.

   **Tuition:** $275 ($25 if did not meet standard)  
   **Prerequisite:** Previous enrollment in a year-long Algebra I class, incl. current 8th graders

3. **Geometry, Sem 1:** MAT741 (.5 math credit)
4. **Geometry, Sem 2:** MAT742 (.5 math credit)

   Summer Geometry students explore more complex geometric situations and deepen their explanations of geometric relationships, moving towards formal mathematical arguments. The critical areas are: congruence, proof, and constructions, similarity, proof and trigonometry, extending to three-dimensions, connecting algebra and geometry through coordinates, circles with and without coordinates, and applications of probability.

   **Tuition:** $275 ($25 if did not meet standard)  
   **Prerequisite:** Previous enrollment in a year-long Geometry class, incl. current 8th graders

5. **Algebra 2, Sem 1:** MAT751 (.5 math credit)
6. **Algebra 2, Sem 2:** MAT752 (.5 math credit)

   This course is designed to meet the same needs as the Algebra and Geometry courses above. If a student did not pass, or wants to improve their grade in Algebra II, they can take either Semester 1 or 2 of the course through Summer School and earn credit and/or improve their grade.

   **Tuition:** $275.00 ($25 if did not meet standard)  
   **Prerequisite:** Previous enrollment in a year-long Algebra II class

7. **Biology, Sem 1:** SCI161 (.5 science credit)
8. **Biology, Sem 2:** SCI162 (.5 science credit)

   This course will explore life science topics such as the characteristics of life, energy and matter in living systems, growth and development of organisms, inheritance and variation of traits, evolution, and ecology.

   **Tuition:** $275.00 ($25 if did not meet standard)  
   **Prerequisite:** Previous enrollment in a year-long Biology class
INITIAL CREDIT COURSES

(1) Art Intro (Semester Course): ART051 (.5 elective credit)
This is a semester-long introductory course. Students explore the elements of art and principles of art and design to create complex artwork. Students will explore several art media in a series of fun projects and exercises. Students will explore: color mixing, brush handling, basic use of art tools, techniques and media, exploration of art from world cultures, creative problem solving.

*This class may be taken in conjunction with another summer school course***

*Tuition: $275.00  Prerequisite: None

(2) Personal Fitness: HLT301 (.5 Credit in PE or Elective)
This course is designed for students to learn a variety of personal fitness activities to improve muscular strength, muscular endurance, flexibility, cardiorespiratory endurance and body composition. The course will teach students a variety of ways to improve their strength and cardiorespiratory endurance for lifelong health and enjoyment. Instruction will incorporate safety procedures. The students will understand the five components of fitness and how they relate to their fitness, goals and personal fitness plan.

*Tuition: $185.00  Prerequisite: None

**Note: This class will meet at least 2 times per week and requires additional home workouts. A minimum of 60 hours total must be met to receive credit.
*This class may be taken in conjunction with another summer school course***

Online Courses, Shorecrest Computer Lab Open 9 AM – 3:30 PM

There are two systems for on-line learning – APEX for credit recovery and Shoreline Virtual Learning (SVL) for initial credit. Students should contact their counselor for questions about SVL. Here is information about APEX.

APEX CREDIT RECOVERY
Students who seek credit recovery may enroll in up to three Apex courses (one at a time). Upon successful completion of their course, students receive a ‘Pass’ grade on their transcript, earning .5 credit for each course completed. Refer to the Online Summer School Agreement for important details regarding attendance, proctored tests, grades, and more. To enroll, counselors choose up to three eligible courses from the list below and enter on the registration form. Counselor approval and signature required. *Tuition: $100 per course*

**SHORELINE VIRTUAL LEARNING**
Shoreline Virtual Learning (SVL) is open to students enrolled with a full-time schedule at Shorecrest or Shorewood, and who want to take more classes than the school day allows. All courses earn .5 initial credit and a letter grade is awarded on the transcript. SVL course enrollment requires counselor approval.

To begin the enrollment process, students should meet with their counselor and/or review the Shoreline Virtual Learning website at [https://sites.google.com/a/k12.shorelineschools.org/shoreline-virtual-learning/home?authuser=0](https://sites.google.com/a/k12.shorelineschools.org/shoreline-virtual-learning/home?authuser=0)

This High Summer School Registration Form is not used for SVL registration. To enroll in Shoreline Virtual Learning, please contact your counselor.

Due date for SVL registration is June 14th.
