Thank you!!
The Shoreline Training and Production Center offers a unique educational program for students with special needs in the Shoreline School District, as well as providing a cost effective way for businesses to have their products assembled and distributed.

Student benefits:

- Develop positive work attitudes and behaviors
- Learn important work skills
- Work towards achieving independence on vocational tasks

By partnering with the STPC, businesses promote the educational and vocational development of students with special needs.

Testimonial

"Shoreline Production Center has provided packaging services to our company for nearly 20 years. They counted, kitted, and packed various fasteners per our work orders. They have always been very responsive to our needs, flexible, and easy to work with. The quality of their work is outstanding. I would wholeheartedly recommend them to anyone needing these types of services."

- John Fuhrman
Minerallac Operations Manager
