

In-School Only Option for Student Chromebook – 2019

Option Description: Access to Chromebook for classroom.

- 1) Chromebooks are available for student check-out when needed for classroom activities.
- 2) Families choosing not to receive a district Chromebook for full school/home access assume responsibility for providing adequate computer access at home for the completion of school assignments. Teachers plan instruction on the assumption that students have home computer access to complete work.
- 3) Students are responsible for checking Canvas and/or other online resources for assignments, documents, etc. as required by their teachers.
- 4) Students using in-school Chromebooks are expected to follow all existing standards of acceptable use and care/handling. Damages resulting from intentional abuse or neglect will result in appropriate fees for repair costs. Misuse of the devices can result in disciplinary action and potential loss of access.

We are choosing In-School Check-Out for the student listed below.
