

iPad Home Setup Information

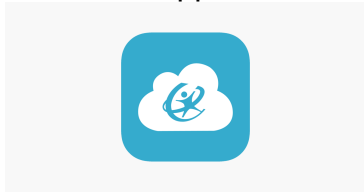

1. Press power button to turn iPad on.

2. Connect to home Wi-Fi network:

- Select “Settings”
- Select “Wi-Fi” from menu on left side of screen
- On the right side of the screen select the name of your home network.
- If there is no password on your home network it will join at this point. If there is a password you will be prompted to enter it and then it will join.

3. Sign in to ClassLink:

- Select the app called “ClassLink”

- Select the QR code symbol:

If a message pops up saying “ClassLink Would Like to Access the Camera” select “OK”

- Scan supplied QR code.
- You should now have access to the online resources available to your student.
