STARTING A NEW CLUB

The school district philosophy adheres to the belief that student involvement in activities outside the regular curricular program are an integral part of a complete educational program. Student participation in these programs add to the student educational experience and enhance the overall educational process. Extra-curricular opportunities are designed to enrich classroom learning by providing activities which allow students to experience first hand situations. Club activities encourage student participation through teamwork and social interaction. Planning, problem solving and goal setting are some of the skills learned through the club experience. Advising student activities requires time and effort. In the case of an ASB club or activity advisor, time and effort are essential if the club is to operate for the benefit of its members, the school and the community.

A general job description for an ASB club advisor is included in this manual. Advisors should read it carefully. Students should be encouraged to participate fully in all phases of club activities – from planning to record keeping – however, they cannot be expected to manage their clubs and activities without advisor supervision. Students must be apprised of correct ASB procedures and advisors must carefully monitor students’ use of these processes. Advisors are to provide direction, counseling and guidance in the supervision of these extra-curricular activities. They should also be able to administer and implement district policies and procedures in a manner which protects the welfare of our students.

The process for starting a new club is fairly simple, but can take a few months. According to law, the club must be cultural, athletic, recreational, or social in nature. Although it is acceptable to be related to the curriculum, no club may be used to earn funds for a class or for curriculum. Furthermore, no activities of a club may be graded for earning credit in a class. So a club must be optional and non-graded.

CLUBS WILL BE DIVIDED INTO ONE OF TWO CATEGORIES:

Curricular: One which applies itself outside of class academically or pertaining to a course at Shorecrest, but which adheres to all rules set forth above (i.e Math Club, Science Club, etc.) Only curricular clubs can receive direct funding from ASB.

According to the Courts, a student group directly relates to a school’s curriculum only if:

1. the subject matter of the group is actually taught or will soon be taught, in a regularly offered course (examples: DECA as related to Marketing/Business courses or a French club);
2. the subject matter of the group concerns the body of courses as a whole (example: National Honor Society); or,
3. participation in the group is required for a particular course or results in academic credit (ASB club status is determined by time spent outside of the classroom. i.e. music, annual, leadership, drama)

Non-curricular: One which applies itself to outside interests of which are appropriate to school environments and are in accordance with all above rules. The ability to use schools space as well as announcements, bulletin, and wall space for advertisements are included with this title.

All rules apply to Curricular and Non-curricular clubs. Both types of clubs are allowed to fundraise for themselves, however only Curricular clubs will receive funds from ASB in pursuit of club related activities.

SERVICE PROJECTS FOR CLUBS: SERVICE WITH A SMILE

Much of what a club is all about is service, but performing an additional Service Project allows your club to give something back to the school or to the community. Since you are part of a visible group, your project should demonstrate your creativity and dedication to improving the public relations of our school. It is also a wonderful opportunity for group members to share in a project. There is always something that needs to be done and you might as well have fun while you're doing it! Many clubs have a great deal of pride in their projects. Projects may be one time activities or year long and on-going projects. At least one service project is encouraged for each club or as a condition for ASB chartering. A few service project ideas:
